

## Life Enrichment Initiatives

Just as the aging experience is unique for everyone, so too are Eskaton's creative solutions to help assure that life is as independent and purposeful as possible. We distinguish our commitment to the well-being of our residents and program participants with a variety of original Signature Programs, like Kids Connection; smart motion-sensor technology; our Medical Partner Program; and Life Enrichment Initiatives, which include:

### Social Connections

Eskaton encourages and facilitates social connectivity with family, friends and the world through e-living and Keep Connected. The e-living program is an online portal designed to enhance communication among staff, residents and families about community news, announcements, event calendars and dining options. Users can send pictures and access free entertainment features. Through Keep Connected, residents, families and friends keep in touch through online video services.

### Pet-friendly Communities

Eskaton welcomes companion animals in all of its communities, knowing that the bond between pets and people is one of life's great joys.

For more information about these programs, talk to your Eskaton community representative.

## Life Enrichment Initiatives

### Veterans Appreciation

Several hundred military veterans reside in Eskaton communities or benefit from the organization's home-based support. Eskaton sponsors a variety of celebrations and activities to honor and serve our veterans (as they have done for us).

### Thrill of a Lifetime

As living proof that one is never too old to try something new, Eskaton initiates ultimate experiences to generate anticipation, excitement, satisfaction and memories for residents and program participants.

### Eskaton Celebrates 100+

This program gives special recognition to residents and participants who reach centenarian status. We recognize this individual and collective good fortune with a special package of birthday activities.

### Therapeutic Music Program

For residents with acute chronic pain living in long-term care, the soothing sounds of a harp transform them for a period of time to a space of calmness, peace, joy and fulfillment.

*Programs may vary by community, so be sure to ask a community representative for details*
